

Postdoctoral position: Electron microscopy of viral structures. Profs. Kenneth Roux (<http://www.bio.fsu.edu/faculty-roux.php>) and Kenneth Taylor (<http://www.sb.fsu.edu/~taylor/>) (<http://www.bio.fsu.edu/faculty-taylor.htm>) of the Department of Biological Science and Institute of Molecular Biophysics, Florida State University, are seeking a postdoc with experience in electron microscopy and computational structural analysis to investigate the surfaced features of HIV-1 and SIV (and possibly HCV). Projects largely involve cryoelectron tomography. Please send letter and CV to Prof. Kenneth Roux at roux@bio.fsu.edu.
