

[email reply re: available maize genome assemblies, Sep 2024].

Hi Hank,

We have a lot of genomes (<https://download.maizedb.org/>) to choose from.

B73\_v5

<https://download.maizedb.org/Genomes/B73/Zm-B73-REFERENCE-NAM-5.0/>

NAM\_founders (27 lines, the 25 NAMs, B73v5, and Ab10)

[https://download.maizedb.org/Genomes/NAM\\_Founders/](https://download.maizedb.org/Genomes/NAM_Founders/)

Mo17

<https://download.maizedb.org/Zm-Mo17-REFERENCE-CAU-2.0/>

The **PanAnd** genomes are still unpublished but they would be a good addition in the future.

We will also have new very high quality versions of B104, W22, and PH207 within the year.

Panand
